Hi Helen,
Sure, happy to help out.

For the Master Flight Instructor renewal process.
Helen Woods volunteered at EAA AirVenture Oshkosh 2014 as a subject matter expert in the EAA sponsored display to promote the 10th anniversary of the Sport Pilot and Light-Sport Aircraft rule passage. In this role Helen educated attendees about the SP/LSA rules and opportunities that exist within this category of pilot and aircraft certification.

Helen Woods worked with me to bring together members of industry including EAA, AOPA and LAMA to discuss the opportunity of forming flying clubs to help enable flight training in experimental aircraft. Her knowledge and passion helped inform the group of the potential, and encouragement to others to do the same.

Please contact me if you have any questions or need additional information.
Thanks,
Timm

Tim, I'm working on my Master Flight Instructor renewal and for this I need some sort of proof of everything I ever did involving airplanes over the past two years. Any chance you could send me a short e-mail stating that in 2014 I helped man your sport pilot booth and in 2015 we worked together to arrange a Part 103/Flying Club discussion meeting?

Thanks for your help!
